The authors of the article “Construction of the recombinant vaccine based on T-cell epitope encoding Der p1 and evaluation on its specific immunotherapy efficacy” published in International Journal of Clinical and Experimental Medicine (2015) PMC4483893 would like to amend the Figure 6B in the paper. The Figure 6B was made a mistake by our editing of the figure. Nevertheless, The Figure 6B in the paper was the histopathologic changes of the lung tissue in the asthma positive control group of the mice instead of the immune efficacy after treatment. Our data were fully based on our work, and the Figure 6B did not affect the findings in the paper. The Figure 6 was as follows:
